Akram Khan

RCI Guide

"Pack light—I've learned over the years that I never need everything I've packed. Also, consider shipping large bags like golf equipment to your destination, and pack a small bag with those items you can't live without, in case your bags are delayed or lost in transit. And it is always good to pack an emergency kit with some common medicines."

RCI Guide

"Always have a trusty tour book and your camera to ensure you see every point of interest, and will be able to remember that moment with photographs. And you'll be amazed at some of the unique experiences you'll have if you simply ask some people who live in the area you're visiting where they love to go during their off time."

RCI Guide

“Take as many photos and videos as you can! Make an extra effort to take great holiday shots. You’ll cherish them for the rest of your life. Ask staff members, waiters or any nearby employee of a business establishment to take your photo for you, so that you’re all in the shot without somebody having to be behind a camera.”

Egypt is a safe place to visit, with hardly any crime. People are very good hearted, and honest, and it is nice and safe for tourists too. All in all, our stay at the Coral Hills Resort was a wonderful experience.

Africa & the Middle East

Akalp Gupta

We really enjoyed our trip, as **South Africa** is indeed the Rainbow Nation. It's a vibrant country which has a lot to offer. We thank RCI for enhancing this experience of South Africa. We could do all that we did even as we enjoyed ourselves; it was as if we were living in the luxury of our own beautiful home, relishing the food we like. Were we not on an RCI holiday, this would have been impossible and, of course, very costly.

Akram Khan
RCI Guide

"Pack light—I've learned over the years that I never need everything I've packed. Also, consider shipping large bags like golf equipment to your destination, and pack a small bag with those items you can't live without, in case your bags are delayed or lost in transit. And it is always good to pack an emergency kit with some common medicines."

Switzerland is a lovely country with warm and friendly people. The European summer (July-August) is possibly the best time to visit **Murren** and the surrounding area, as there is less likelihood of the fog which we sometimes had to experience when we were there in early June. The train services are excellent, and you can practically go everywhere in Switzerland by train.

RCI Guide

"Take as many photos and videos as you can! Make an extra effort to take great holiday shots. You'll cherish them for the rest of your life. Ask staff members, waiters or any nearby employee of a business establishment to take your photo for you, so that you're all in the shot without somebody having to be behind a camera."

RCI Guide

“Always have a trusty tour book and your camera to ensure you see every point of interest, and will be able to remember that moment with photographs. And you’ll be amazed at some of the unique experiences you’ll have if you simply ask some people who live in the area you’re visiting where they love to go during their off time.”

Akram Khan

RCI Guide

“Pack light—I’ve learned over the years that I never need everything I’ve packed. Also, consider shipping large bags like golf equipment to your destination, and pack a small bag with those items you can’t live without, in case your bags are delayed or lost in transit. And it is always good to pack an emergency kit with some common medicines.”

Hussain Sait
RCI Guide

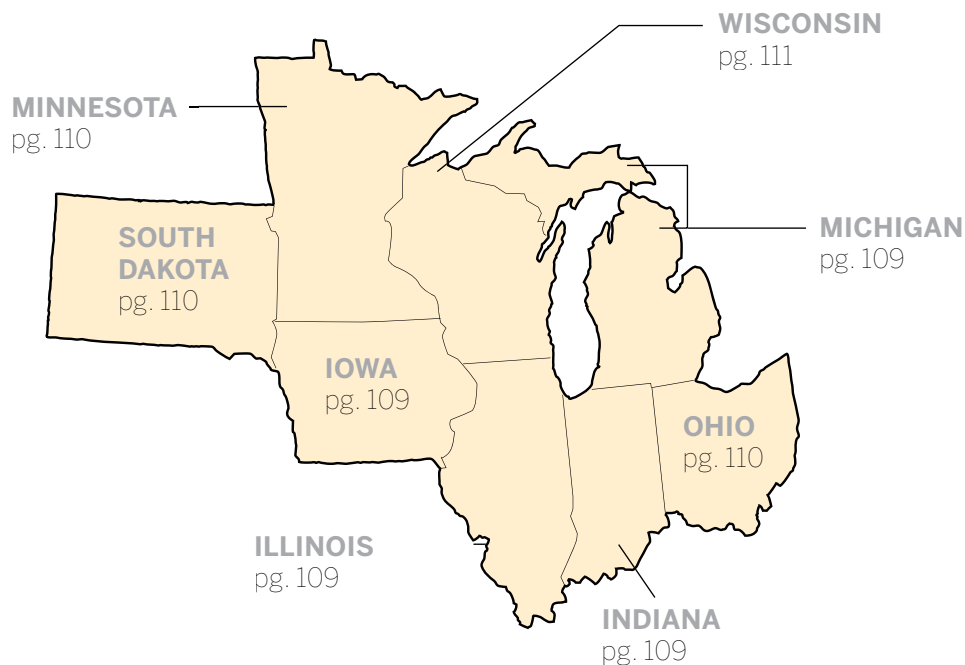

"Always have a trusty tour book and your camera to ensure you see every point of interest, and will be able to remember that moment with photographs. And you'll be amazed at some of the unique experiences you'll have if you simply ask some people who live in the area you're visiting where they love to go during their off time."

RCI Guide

“Pack light—I’ve learned over the years that I never need everything I’ve packed. Also, consider shipping large bags like golf equipment to your destination, and pack a small bag with those items you can’t live without, in case your bags are delayed or lost in transit. And it is always good to pack an emergency kit with some common medicines.”

Another great reef

The largest barrier reef in the Northern Hemisphere begins at the tip of the **Yucatán Peninsula**; it boasts a bountiful population of manatees and the Earth's biggest fish—the whale shark.

Seaside bliss

Pirates once sailed these waters, and now you can, too. Choose from private charters, deep sea fishing boats, whale watches and sea kayak tours. But you won't be able to resist the inviting ocean and beaches: You can try swimming with humpback whales, snorkelling among neon starfish in a nationally protected underwater park, or kitesurfing on a windswept cove.

RCI Guide

“Take as many photos and videos as you can! Make an extra effort to take great holiday shots. You’ll cherish them for the rest of your life. Ask staff members, waiters or any nearby employee of a business establishment to take your photo for you, so that you’re all in the shot without somebody having to be behind a camera.”
